

**Benvenuto** to Cervia where the **STACK EuroCup** will take place this year! On the Cervia beach a lot of you have had the pleasure to fly every year during festivals and Cervia Cups.

*STACK Italy* is very proud to announce that the entire event will be carbon neutral certified by LIFEGATE (<http://www.lifegate.it>), an independent certification authority. The EuroCup 2011 is the first event of its kind to receive such certification and to offset CO<sub>2</sub> emissions.

This document is the registration form for both competition and lodging reservations. It will provide guidance on the procedure for payments too.

The competition registration sheet must be filled in and returned, together with all the other forms, to *STACK Italy* not later than September 15th, 2011.

Your entries will become effective only on receipt of these documents by email, together with the necessary payment.

Several packages have been prepared for competitors and companions. You can choose a "Standard Package", which comprises in various combinations hotel, meals, saturday party with live music, the competition fee for pilots and a pollution free certification, balancing your CO<sub>2</sub> emissions.

Alternatively or you can book hotel room and meals separately (see page 7). In this case the compensation of your CO<sub>2</sub> emissions is not comprised in the cost of package, anyway *STACK Italy* is glad to offer it for you.

We hope you will have an excellent stay with us in Cervia during STACK EuroCup 2011.

You can appreciate the sun and good food as well and our company.

All *STACK Italy*, *Cervia Volante Kite Club* welcome you in Cervia!
